

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Perfect, but infertile flower, furnishing only the pollen, a side view. Fig. 6. Female flower, consisting only of an ovary; the two bracts shown below. Fig. 7. *Enothera linearis* Michx. with aberrant forms of petals. Bristol, Florida.

BRIEFER ARTICLES.

Bibliography of American botany.—The following circular has recently been sent to botanists and we desire to aid in giving it the widest publicity. See also editorial comment, p. 467.

"One item recommended by the Committee on Bibliography of the Madison Botanical Congress is an author catalogue of current works on American botany. To secure this Dr. N. L. Britton, editor of the *Bulletin of the Torrey Botanical Club*, kindly offered to change the monthly 'Index to literature relating to American botany' to the form recommended.

"Dr. Britton has experimented with details of form and typography and also, as planned, has experimented in reprinting the titles on regular index cards. He estimates that these cards will number nearly 1000 per year and that if the number of subscribers is sufficient, the series for 1894 can be supplied for five dollars.

"The cards will be of extra heavy linen ledger paper, accurately cut and the titles will be exact reprints of the matter that appears each month in the *Bulletin*, which will enable subscribers to keep the entire series in a single alphabet and to incorporate it with other indexes if they wish.

"This is the first step toward accomplishing the plans recommended by the Committee, and it is hoped that it will meet the approval and support of American botanists.

"Dr. Britton has asked the undersigned to take charge of subscriptions and the monthly distribution of the cards. It is important that we know very soon how many copies will be wanted. If you want it, kindly say so at once. If you can not subscribe now and think you may later, we need to know it. In any case please reply on enclosed postal. Samples inclosed.—CAMBRIDGE BOTANICAL SUPPLY CO., Cambridge, Mass."
